

Reclassified Land Cover Within 100 ft of Mapped Freshwater Wetlands

Land Cover Within 100ft of Wetlands

- Natural
- Developed

This map displays developed and natural land cover within 300 ft of mapped freshwater wetlands, representing a screening-level assessment of surrounding land-use patterns within the Kayaderassas Creek watershed.

Data sources: NYS DEC Freshwater Wetlands; National Land Cover Database (NLCD); USGS Watershed Boundary Dataset (HUC-12).

Land cover reclassified into developed and natural categories for screening purposes.
Projection: NAD 1983 UTM Zone 18N.
